7-Step Blueprint

Step 1: Define Your AI Funnel Goal

Is it: - Lead generation? - Demo bookings? - Sales call scheduling? Be specific. Every tool and action will tie back to this goal.

Step 2: Create Awareness Content with AI

Use ChatGPT or Jasper to: - Write blog posts - Create LinkedIn threads - Draft ad copy Pro Tip: Add a lead magnet CTA in each piece.

Step 3: Launch AI-Powered Outreach

- Use Instantly.ai for cold email.
 - Segment audiences with filters (e.g., job title, industry).
 - Add personalization variables powered by AI.
-

Step 4: Capture Leads with Smart Forms & Chatbots

Use Manychat or Tidio to: - Auto-respond to site visitors - Capture emails and questions - Qualify leads with predefined flows

Step 5: Score & Segment with AI CRM

- Connect leads to HubSpot CRM
 - Activate AI lead scoring
 - Set up automation for tags and follow-ups
-

Step 6: Nurture with Personalized Sequences

- Use Jasper to write multiple email variants
 - Segment messages based on behavior
 - Use time delays and smart triggers
-

Step 7: Optimize Conversions with Funnels

- Use ClickFunnels AI to A/B test landing pages
 - Trigger offers or CTA based on visitor behavior
 - Use heatmaps and scroll tracking for improvement
-
